

# Alfa Spider

Power supply green connector:

- Disconnect pin 22 at processor ZC422 187 CFN
- Lift pin 10 at IC HCT14A
- Press Spider/GTV plug on the processor. Pin 1 is marked red!
- The old value is not displayed (?????)
- When Tacho Universal says „reset“ press the red button for 1 second
- After programming connect pin 22+23
- Re.connect pin 10
