1. If the 4th digit of the VIN is a character, which refers to it is a VIN for the American model, otherwise it is for non-American model when it is a digital.

2. For the American model, the 4th digit refers to the chassis code, and the 10th digit refers to model year (e.g. WDBG *****), the chassis code is 'W140'); and for non-American models, the 4th, 5th, and 6th digits refer to the chassis code, and the 10th digit does not refer to the model year which also can't be judged from the VIN (e.g. WDB140 *****), the '140' is the chassis code).
